# Spoke

Tuesday December 1, 1981  
The Voice of Gonzaga's Students

This is a free weekly  
in New Graham  
and in New Grant, Lincoln  
County.

Volume 1, Number 1

## Students responsible for their safety

Here, the victim, Bill "Buddy" Smith, is seen lying on the ground in front of the building where the shooting took place. (Photo by the author)

### Transfer payments reduced

by Betty Johnson

The proposed cuts of \$2.5 billion in federal transfer payments to the states in 1982 would mean that states would have to cut back on their education, health, and social services, according to the Congressional Budget Office.

President Ronald Reagan's proposal to cut federal transfer payments to the states by \$2.5 billion would mean that states would have to cut back on their education, health, and social services, according to the Congressional Budget Office.

The proposal would mean that states would have to cut back on their education, health, and social services, according to the Congressional Budget Office.

The proposal would mean that states would have to cut back on their education, health, and social services, according to the Congressional Budget Office.

The proposal would mean that states would have to cut back on their education, health, and social services, according to the Congressional Budget Office.

Bill "Buddy" Smith, a 21-year-old student, was shot in the chest by a gunman who fired a .38 Smith & Wesson revolver at him. Smith was shot in the chest by a gunman who fired a .38 Smith & Wesson revolver at him.

#### Transfer Payments

When we hear that a transfer payment has been cut, we often hear that the cut is only a few percent. But the cuts in federal transfer payments to the states are much larger than that.

The cuts in federal transfer payments to the states are much larger than that. The cuts in federal transfer payments to the states are much larger than that.

The cuts in federal transfer payments to the states are much larger than that. The cuts in federal transfer payments to the states are much larger than that.
